"We as the people" welcome you

For those who are new, we give you a warm welcome from like-minded living men and women.

From the Editor

We will **NOT** be having a meeting this Sunday as we are holding a stall at the off grid expo at Gympie Showgrounds 1 - 2 August 2026 ... see below.

We will be returning with the next meeting on 16 August 2026.

We are also seeking support for a public meeting intended for the Pavilion on 10 October 2026. We will need to get support for a successful event in bringing the option of alternatives to the pesticides for the community.

Actions and Connections

My Place Gympie is supporting the Gympie Region Fire Ant Group through presenting a stall at the Expo in raising awareness in scientifically backed natural alternatives to the pesticides currently being used in the national fire ant eradication program.

Here is a description of the expo and a link to the website for more information on the exhibitors.

OFF GRID means many different things to many different people.

For some it may mean disconnecting from public utilities while for others it is choosing to live in a self-sufficient manner.

People are choosing to change the way they live their lives.

Some embrace the Tiny House Community or become traveling Nomads, while others move off grid. The reasons are varied but include reducing the cost of living and minimising the impact we are having on our planet.

More and more people are choosing to grow their own food and learn old crafts and skills to enhance their lifestyle methods.

Crafts such as weaving and spinning, bread and cheese making, pottery and carpentry, reusing, recycling and repurposing.

Many people now support themselves financially by creating their own income stream through utilising their own passions and skills.
