"We as the people" welcome you

For those who are new, we give you a warm welcome from like-minded living men and women.

From the Editor

See Craig's message below. He's asking for help with the investigation stage of a class action.

Actions and Connections

As part of the discussion on Sunday, we will be updating on the confirmed speakers so far for the event along with the attached link in the agenda for anyone personally affected by the current National Fire Ant Eradication baiting Program (NFAEP).

The attached link in the agenda is a direct link to the legal team undertaking the investigation stage of the Class Action to build a case against the program. In the link attachment anyone who has had the program come onto their properties and caused harm in anyway can report it to the legal team through the link.

What This Form Will Be Covering

1. Personal details
2. How were you first impacted by the NFAEP
3. Physical & mental/emotional harm experienced by yourself, other adults at your property (who are unable to complete their own form) & children
4. Harm to all animals - domestic, farm, wildlife, aquatic life & beehives
5. Harm to your property
6. Harm to environment & ecological integrity
7. Harm to your business
8. Harm to your reputation &/or social & family life
9. Harm to your enjoyment of life
10. Communication with NFAEP &/or other agencies involved eg. McDermott Aviation, DPI, Human Rights Commission, APVMA, CASA
11. Illegality/Unlawfulness/Negligence of NFAEP (& their agents &/or contractors) & McDermott Aviation

Many questions include the option to upload your files of evidence eg. videos, photos, emails, written letters

This includes anyone who has sent a letter on notice to the program advising the baiting program is not to be carried out on their property as they have animals or children that may be affected through the baiting and have been ignored by the ariel or ground based treatments.
